

Empowering Global Enterprises to Achieve Digital Transformation

Joget Combines the Best of Rapid Application Development, Business Process Automation and Workflow Management.

Open Source + No-Code/Low-Code + Workflow

What is Joget DX?

Joget DX is an open source no-code/low-code application platform for faster, simpler digital transformation. It combines the best of business process automation, workflow management and rapid application development in a simple, flexible and open platform.

Visual and web-based, it empowers non-coders to instantly build and maintain apps anytime, anywhere. Joget makes it easy to empower business users, non-coders or coders to create enterprise applications for customer management, operational excellence, business process management and administration. Every organization demands easy to build and adaptable applications, and Joget enables those application delivery goals with a low total cost of ownership.

With more than 3,000 installations, 400+ enterprise customers and 12,000 community users worldwide across various industries (including finance, manufacturing, IT, and more), Joget is a proven platform for a wide spectrum of organizations ranging from Fortune 500 companies to government agencies and small businesses.

Gartner
peerinsights™

"I Dreamed Of It And Joget Did It!"

5.0 ★★★★★

"It was the only one where I could download, install and create my first app in just 2 hours directly on my Workstation (for testing purpose)!! Just amazing!! Without typing any piece of code I was able to create an app to automate a process which was done previously by email and excel file!!"

"Very Easy And Quick Implementation."

5.0 ★★★★★

"We used the Joget product for automating the catalog management and other workflow requirement. Joget has tons of feature to spin the application in matter of hours. There is no code involved. I highly recommend for any enterprise. "

Customer: Energy Provider, Malaysia

One of South East Asia's leading international independent power producers, controlling a diversified portfolio of quality power generation assets across a range of technologies with markets in Malaysia, Egypt, Bangladesh, UAE and Pakistan, as well as emerging markets in South East Asia, the Middle East and North Africa.

Business Issue

- Needed a centralized reporting system to keep track of all tasks with progress monitoring from all sites and plants across the globe.

Summary

- Client needed to compile their form submissions using MS Excel and relied on email tools and WhatsApp chat rooms for their business operations.
- They lacked a centralized system to retrieve previous records and a monitoring system to keep track of the submitted forms on a monthly basis.
- Needed to compile submissions from different sites across the world in a centralized database; allow information retrievable and enable auto-reminders for overdue tasks based on deadlines.

e-Reporting System (eRS)

Solution Highlights

- The e-Reporting System was built on the Joget Platform to check and monitor the data input without the need to manually send out email reminders.
- Email notifications are sent out automatically whenever the deadline for certain tasks are around the corner to reduce the time and effort spent on monitoring the work progress.
- Information are consolidated via EDI with their HQ in China once the records have been approved.
- The e-Reporting System is able to monitor tasks and track progress from all sites and plants, where all records and tasks are centralized.
- Management is also able to search and retrieve past records consolidated from all sites.
