Empowering Global Enterprises to Achieve Digital Transformation

Joget Combines the Best of Rapid Application Development, Business Process Automation and Workflow Management.

Open Source + No-Code/Low-Code + Workflow

What is Joget DX?

Joget DX is an open source no-code/low-code application platform for faster, simpler digital transformation. It combines the best of business process automation, workflow management and rapid application development in a simple, flexible and open platform.

Visual and web-based, it empowers non-coders to instantly build and maintain apps anytime, anywhere. Joget makes it easy to empower business users, non-coders or coders to create enterprise applications for customer management, operational excellence, business process management and administration. Every organization demands easy to build and adaptable applications, and Joget enables those application delivery goals with a low total cost of ownership.

With more than 3,000 installations, 400+ enterprise customers and 12,000 community users worldwide across various industries (including finance, manufacturing, IT, and more), Joget is a proven platform for a wide spectrum of organizations ranging from Fortune 500 companies to government agencies and small businesses.

Gartner peerinsights™

"I Dreamed Of It And Joget Did It !"

5.0 ★★★★★

"It was the only one where I could download, install and create my first app in just 2 hours directly on my Workstation (for testing purpose)!! Just amazing!! Without typing any piece of code I was able to create an app to automate a process which was done previously by email and excel file!!"

"Very Easy And Quick Implementation."

5.0 ★★★★★

"We used the Joget product for automating the catalog management and other workflow requirement. Joget has tons of feature to spin the application in matter of hours. There is no code involved. I highly recommend for any enterprise. "

TELECOMMUNICATION

Customer: Telecom Company

The client is one of the largest telecommunications companies in the world in terms of market capitalization and number of customers, where they have the best infrastructure and an innovative range of digital and data services.

They are also favorably positioned to meet the needs of their clients and capture growth in new businesses.

Business Issue

- To digitize and automate all tasks between front and back office.
- To automate the creation of reports and constantly monitor the work progress.

Summary

- Client needed to manage a large number of transactions and exchanges.
- There are often delays in meeting the deadlines as a huge amount of time is needed to prepare relevant reports.

ABAI Digital Suite App

Solution Highlights

- An Abai Digital Suite App was built on the Joget Platform within 14 days to improve, measure and constantly monitor the efficiency and productivity of the front and back office.
- A better sales conversion ratio is achieved after the app being implemented in the business operations.
- Gamification, where the infographic being shown on the user interface, is unique for each user and it is being generated from the data studio itself.
- Capability to keep track of the work history from time to time.
- An online report is being updated every 15 minutes.
- Digital signature.
