

Empowering Global Enterprises to Achieve Digital Transformation

Joget Combines the Best of Rapid Application Development, Business Process Automation and Workflow Management.

Open Source + No-Code/Low-Code + Workflow

What is Joget DX?

Joget DX is an open source no-code/low-code application platform for faster, simpler digital transformation. It combines the best of business process automation, workflow management and rapid application development in a simple, flexible and open platform.

Visual and web-based, it empowers non-coders to instantly build and maintain apps anytime, anywhere. Joget makes it easy to empower business users, non-coders or coders to create enterprise applications for customer management, operational excellence, business process management and administration. Every organization demands easy to build and adaptable applications, and Joget enables those application delivery goals with a low total cost of ownership.

With more than 3,000 installations, 400+ enterprise customers and 12,000 community users worldwide across various industries (including finance, manufacturing, IT, and more), Joget is a proven platform for a wide spectrum of organizations ranging from Fortune 500 companies to government agencies and small businesses.

Gartner
peer insights™

"I Dreamed Of It And Joget Did It!"

5.0 ★★★★★

"It was the only one where I could download, install and create my first app in just 2 hours directly on my Workstation (for testing purpose)!! Just amazing!! Without typing any piece of code I was able to create an app to automate a process which was done previously by email and excel file!!"

IT Manager

"Very Easy And Quick Implementation."

5.0 ★★★★★

"We used the Joget product for automating the catalog management and other workflow requirement. Joget has tons of feature to spin the application in matter of hours. There is no code involved. I highly recommend for any enterprise. "

Create Enterprise Applications @ The Speed of Thought

Customer: Vaillant and Saunier Duval

Saunier Duval is a leading brand for heating technology, having its origins in the French market. It has been manufacturing reliable products for more than 100 year

Their product range includes non-condensing and condensing boilers that supply homes with warmth and hot water, heat pumps that are used to support renewable energy systems and high-quality solar-powered solutions and air conditioning appliances.

Business Issue

- Need to digitize paper processes and get real-time insight on the status of service quality.

Summary

- Employees took a lot of time to register, evaluate and automate quality audits in the different customer relationship channels, especially in its business operations where they need to order, register, report and classify documentation.
- Need to carry out the evaluation and correction processes on an on-going basis.

Quality Assurance Digital App

Solution Highlights

- A Quality Assurance Digital App was built on the Joget Platform within 2 days to reduce the time taken to maintain documentation and create relevant reports.
- The additional time consumed on exchanging feedback with the workers is eliminated.
- Client is able to monitor their work progress from time to time.
- Working efficiency and productivity are being improved tremendously.
- Automate evaluations and corrections in real-time.
- The system also supports digital signatures for document signing and approvals.
